

HARPERS FERRY

LEGEND

 National Park Service Property

 **Historic Preservation Target Area:** The historic buildings and streetscapes outside of Harpers Ferry National Historic Park are vitally important to our cultural heritage. Harpers Ferry was designated in 2001 by the Governor of West Virginia and the National Trust for Historic Preservation as a community which is historically important and which needs revitalization. Main Street's goal is to provide the best climate possible for healthy businesses which results in restored and maintained historic buildings, a pristine natural setting and a lively enjoyable town for everyone. A thriving Harpers Ferry benefits all of our surrounding communities.
